

New campus at Powai!

On 15th of February 2017, Maharashtra National Law University Mumbai inked an agreement with MTNL (Mahanagar Telecom Nigam Limited) that leases out a part of the organisation's state of the art CETTM (Centre for Excellence in Telecom Training and Management) campus at Powai to the University. This agreement has come to fruition owing, in large measure, to unstinted support the University has been receiving from the Government of Maharashtra, the judiciary and the academia in its endeavours. The contract is for an initial period of three years, which may be extended further if necessary.

Upon its relocation to the CETTM, the University will share facilities with the distinguished institution and enhance its academic activities in a more sustainable manner.

Quick Facts Academic Block	Quick Facts Residential Block
➤ Fully equipped Moot Court Halls and Mediation and Counselling Rooms	➤ Spacious double-seaters with attached balcony
➤ Cafeteria type classrooms that foster a culture of active learner participation	➤ Two mess halls with 500+ seating capacity
➤ Centrally air-conditioned premises	➤ Hostel complex features a sprawling lobby, a clubhouse and swimming pool

As per the arrangement, two floors admeasuring 26280.10 sqft. of the sprawling CETTM tower would be made available to MNLU Mumbai. The University is excited with the prospect of significant expansion in its scope of academic and research related activities in its new premises.

Additionally, the agreement provides for fully furnished hostel seats numbering, for the moment, to one hundred in the residential block of CETTM Training Hostel situated just across the road from the CETTM tower. The licensor has further agreed to provide the University additional 50 rooms each year as and when new batches of students join courses. With this augmented capacity in terms of its hostel intake, MNLU Mumbai will become a fully residential campus for the first time since its inception. Following the takeover on 15.02.2017, the University has engaged the PWD of the Government of Maharashtra to renovate the floors to suit its purposes. The refurbishment work is expected to get over by May 2017.

Classes for the next academic year will commence at the CETTM premises which will be University's new home till it is ready to move over to the permanent campus at Gorai, where land has been allotted by the Government of Maharashtra on 10th of June 2016.

With the problems of infrastructural facilities facing the fledgling University hereby met, MNLU Mumbai is all set to welcome its new (third) batch of entrants through CLAT in July 2017.
